

Regesta Assessment – User guide

The initial page of the project shows a simple form with the two fields:

- **Product** is a drop-down menu that lists all the products present in the database, is used to select the required product;
- **Quantity** is a numeric field that is used to enter the desired quantity.

Regesta Assessment

Product

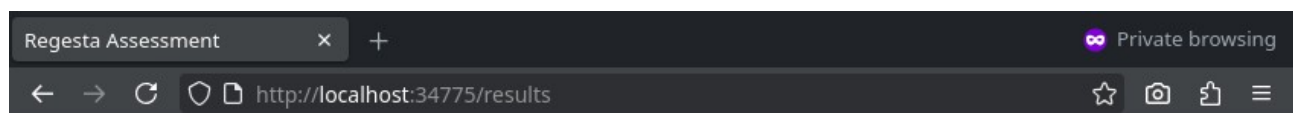

Select a product

Quantity

Enter a quantity

Search

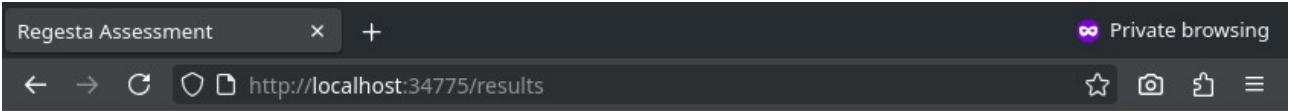

After selecting a product and entering the quantity, clicking on the “Search” button leads to the results page, where the costs from each supplier are shown. In the example below, “Supplier 2” is the one with the lowest price, so its box has a green label in the top right corner. Each box also shows the estimated shipping time for each supplier.

Regesta Assessment

<div>Lowest price</div> <div>Supplier 2</div> <div>Total price: 1459.20 € Shipping: 7 days</div>	<div>Supplier 3</div> <div>Total price: 1470.60 € Shipping: 4 days</div>
---	---

If no suppliers have the required quantity for the selected product, an error page explaining the situation is shown instead.
